Chinese Government Trying to Prevent Forward Movement.

OBSTACLES IN LIHUNG CHANG'S WAY

Government of United States is Willing to Render Aid When Terms Have Been Complied With by Peking kolks.

Washington, Aug. 1.—The safety of the ministers at Peking being temporarily assured, the attention or the government is now being directed toward two objects, first to effect the permanent safety of the ministers by bringing them away from Peking and second, to hasten the advance in the Chinese capital.

The Chinese government is employing every device diplomatically to prevent the forward movement of the international column. Li Hung Chang is the main reliance to encompass this purpose, but he is hampered by the obtuseness of the Peking officials. Our government is willing to render such assistance as it properly can, but it must be upon the terms already laid

It is said here that the one possible means of stopping the forward movement of the column within the reach of the Chinese government is an instant compliance with the first demands of the powers, namely that the ministers be put in free communicattion with their governments. It has been suggested to the Peking authorities that they send an embassy immediately to Tlen Tsin, clothed with full authority to deal with the situation and given unlimited power to afford reparation for the injuries inflicted upon the internationals.

If this is preceded by the release of the ministers from siege, there is a possibility that the powers temporarily will suspend the mliltary movement which may, in the end, be rendered unnecessary if the embassy meets the demands of Europe and America.

Meanwhile Admiral Remcy cables that more marines—those who crossed on the Grant under Major Biddle-are being sent to Tien Tsln, indicating the intention of the military com manders there to make an early start.

The advices from Ll Hung Chang, brought to the state department by Minister Wu, afford strong evidence of the desire of the Chinese government to escape from its present prediciment, and certainly seem to afford a reasonable guarantee for the bodily safety of the legationers pending the outeome of negotiations respecting the abandonment of the Peking campaign.

Care For the Sick.

Washington, Aug. 1.-The following cablegram was received at the navy department from Admiral Remey dated July 29: 'Solace with sick and wounded proceeded Nagasaki, Yokohama, Guam, Honoiulu and Marc Island, five marines and navy officers, five army officers, nine navy men, 90 marines, 65 Ninth infantry. All men will remain aboard Solace until otherwise recommended by army medical authorities at Nagasaki or Surgeon Anderson at Yokohama. Army hospltal ship Reilef, preparing at Nagasaki for Taku. Japanese hospital ship alternating here at our disposal if necded. Lieutenant Leonard's condition more favorable, recovery hopeful. Biddle's command ordered Tien Tsin." Major Biddle's command consists of 225 marines who sailed from San Francisco on the Grant with General Chaffee and the Sixth cavalry.

An Imperial Edict.

Washington, Aug. 1.—The Chinese minister called at the state department and presented to Secretary Hay some of the latest correspondence that has passed between Li Hung Chang and the imperial Chinese government. The minister's dispatches state that on the 19th instant Ll Hung Chang and several of the most influential viceroys memorialized the emperor to extend protection to all foreigners in Peking and elsewhere in China. The reply to this memorial was delayed for some time and the viceroys presented another pctltion asking that the ministers should be given safe escort from Pcking or that free communication should be opened between them and their governments. In reply to the memorial the emperor by imperial edict ordered all loyal Chinese to protect foreigners in the empire.

fantry, composed of companies 1, K, L and M, in command of Major George A. Cornish and a squadron of the Third cavalry made up troops B, G, H and I, commanded by Captain McDonald. The objective port of these troops is probably Taku, China, but the recent orders read to the "department of the Philippines."

PROPERTY SEIZED:

Nicaragua Takes Charge of Effects of the Canal Company.

Managua, Nicaragua, Aug. 1.-The government of Nicaragua has taken possession of the property of the Marltime Canal company and removed the company's cars, ralis and property to the interior from Greytown, under article 54 of the consession.

August 1 was the date set for the assembling of the Nicaraguan congress in regular session. One subject to come up was the confirming of the decision of the courts and the official declaration of the minister of public works that the time granted to the Maritime Canal company of Nicaragua, whose headquarters are in New York, in which to construct an interoccanic ship eanal across Nicaragua, had expired and that the concession of that company is null and vold.

It is probable that the seizure of the company's property has been made in conformity with the decision and dcclaration above mentioned, possibly reinforced by congressianal action.

The Nicaraguan congress at the sessiou just begun is expected to take action with reference to the acquisition by the government of the United States of a belt of territory 10 or 15 nilles wide across Nlearagua, embracing the approved route on which to construct an interoceanic ship canal.

Cablegram From Brown.

New York, Aug. 1.-The Rev. A. B. Leonard of the Methodist Missionary society received a cablegram from the Rev. Frederick Brown at Chefoo, which he interprets as meaning that 18 persons of the Methodist colony are in Peking. These include the familles of F. D. Gamewell and W. F. Walker, W. T. Hobwart, H. E. King, George W. Verlty, George R. Davis, George D. B. Lowry; Mrs. Charlotte Jewell, Mrs. Edward K. Lowry, Miss Anna D. Gloss, Miss Alice Terreli, the Misses Eliza beth and Emma Martin, Miss Gertrude Gllman and Miss Edna G. Terry. He understands also that there are in Tlen Tsin James H. Pyke, Victor Martin, Edward K. Lowry and Frederick Brown and Miss Rachel H. Benn.

Towne at Chicago.

Chicago, Aug. 1.- Hon. Charies A Towne, Populist candidate for vice president, arrived in Chleago from Lincoin a little before noon. When asked what determination he arrived at, concerning his withdrawal from from the Populist ticket, Mr. Towne said: "On that subject, I will not open my mouth until the proper time comes." He stated that he expected to leave the city and proceed to Colfax, Iowa, where he will speak on the 3rd instant and wlli reach his home at Duluth on August 5. Chairman James K. Jones wired Judge Johnson ehalrman of the executive committee. that he would not reach Chicago until Friday.

Negroes Discharged.

Niagara Fall, N. Y., Ang. 1.-The Miller and Brundage eompany has deeided to discharge the negro drivers in its employ in compliance with a demand made by the white drivers. James Henderson, white, was stabbed by Isaiah Summerfield, a negro driver on Sunday evening, and this so angered the white drivers that they decided to quit work unless the company agent discharge the negroes.

Ridpath's Funeral.

New York, Aug. 1.—The body of John Clark Ridpath, the historian, who died in the Presbyterian hospital July 31. after a lingering illness, will be taken to Newcastle, Ind., the historlan's late home, where funeral services will be held. There will be no funeral services in this eity.

Ohio Town Burned.

Convoy, O., Aug. 1.-A large part of the business section of Convoy was destroyed by fire. The loss will be from \$80,000 to \$1000. The postoffice, town hali, a hotel, six store buildings and a number of residences were destroyed. The fire started in a blacksmith shop.

TIME OF KING HUMBERT'S FUNERAL.

Federal Authorities at Washington Decide to Investigate the Nest of Alleged Anarchisis in a City of New Jersey.

Rome, Aug. 1.-Klng Victor Emanuel III., and Queen Helena arrived here and proceeded for Monza, where they arrived later. The ministers met their majestles at the railway station. King Humbert's funeral will occur next Saturday with civil and milltary ceremonies.

New York, Aug. 1 .- The leaders of the Italian colony which has settled on the shores of New York harbor are taking steps to ferret out and bring to justice those anarchists who, they belleve, are directly or indirectly responsible for the killing of King Humbert. The present feeling of the Itallan leaders is best expressed by a statement made by F. P. Cambria, president of the United Italian socities of this city. Signor Cambria said: "There is no doubt in my mind that the assassination of King Humbert was plotted here. By that i mean not only in the Italian colony in this city, but in the great settlement of our people around New York harbor. What

GAETANO BRESCL

makes me think more than any thing else that the anarchists among us arc organized and have chosen men from among themselves to put their murderous plans into execution, was an anarchistic lnuendo which I have just discovered. It was only one of thousands such circulars which are being thrown about broadcast among our people. It was printed on the press of an Incendlary organ of the anarchists in Hoboken, the editor of which is said to have been an Intimate friend of Bressl. The circular first assalled the Italian newspapers which have mourned the death of the king. It rallled against any scntiment or sorrow and ridiculed all show of sympathy. Lastly it openly denounced the dead king, rejolced in his taking off and named his assassin a hero. It will accordingly be our purpose to purge our settlement of such an element."

Mrs. Bresci Seek Rest. New York, Aug. 1.—Captain Usher of the Hoboken pollee sald that Mrs. Brescl, wife of the assassin of King Humbert, was in such a nervous condition that she had gone to the house of a friend for rest. The woman isdestitute. She still tries to hope that the man arrested in Italy is not her husband, but she admits that there is little reason for her hope. She will be kept under surveillance pending developments in her husband's case.

A Federal Investigation.

Washington, Aug. 1.—The possible connection between Brescl, the Italian murderer of King Humbert and the New Jersey group of anarchists has moved this government to take measures to investigate the anarchist situation in and around New York. Just what steps have been taken is not made publle.

Mrs. Botha Visits Roberts. Pretoria, Aug. 1.-Mrs. Botha was

the guest of Lord Roberts at dinner. The Boer animosity to President Kruger grows on account of the fact that he and other officers have been per suading the people that South African paper money is as good as bank of England notes because it is based on an alienable state securities, even though the state should be conquered, As the English have not recognized this contention the burghers have been ruined and much misery prevails. The wives and children of the poorer Boers are almost starving. General Botha's forces is kept together by entraord.nary inventions.

amination on the Stand.

Georgetown, Ky., Aug. 1.-The destand, being his third day in the witness box. He was subjected to a rigid cross-examination regarding the organization of the mountaineer arm; He sald that Governor Taylor and hlmself were the primary spirits in getting it up.

The military companies were brought along, he said, because they having some discipline, could be more easil. controlled and moreover that they were already armed.

The witness sald he had urged Governor Taylor, while the contest board was sitting to call out the military companies and to send the bulk of the other mountain people home, and had secured a partlai promise to do it. This was to be done in order that they might hold possession of the state office until the supreme court of the United States passed on the merits of the case.

Geoge F. Weaver, the witness who claimed to hail from Colorado, and who asserted that he saw the gun barrels pointing from the office of secretary of state at the time Goebel was assassinated was arrested on a warrant charging him with perjury. The warrant was sworn out by the attorneys for the defense in the Powers case who say this they have found out! that Weaver was not only not in Frankfort the day of the assassination, but was never there till last Saturday night.

lowa Republicans.

Des Molnes, Ia., Ang. 1.-The Republican state convention was called to order at 11 a. m. by Chairman H. O. Wenver of Wapelia. More than a new auditorium building. Interest in the outcome of the selection of a state ticket is at a higher pitch than it has been for years and the lines seem to be drawn more closely than ever between the friends of Cummins and those of Blytine. Gilbertson of Forest City is known as the Cummins candl. date for state treasurer, while Morrow of Alton represents the opposing faction. The selection of a candidate for secretary of state and the choice of a candidate for attorney general and of supreme judge are more or less dependent upon the result of the choice for treasurer.

No Delay In Advance.

Tlen Tsln, July 26, vla Shanghal, Aug. 1.-The American commander recelved orders from Washington not to delay the advance on Peking. He was also informed that heavy reinforcements arc en routs. Great activity is noticeable at Japanese headquarters Transport preparations are being hurrled. It is extremely unlikely that elther the Japanese or the British intend to be left behind the Americans, though the British preparations are a long way from completion. The Japanese organization, on the other hand excites the admiration of all. The total strength of the allles here is 17,000. Reinforcements are arriving daily.

Democrats Will Win. Raleigh, N. C., Aug. 1.-The political campaign in North Carollna closed and Thursday the election will be held. Though the struggle has been exceedingly bitter and stubbornly contested, a careful poll of the registered vote shows that the Democratic majority for the franchise amendment and state ticket probably will not be less than 30,000. The Democratic managers elaim that It will reach 50,000 or over. The Republicans and Populists who have joined forces on a fusion ticket, make no clalms.

Three Drawned.

Muskegon, Mieh., Aug. 1.-Two men and a young woman were drowned in Muskegon lake by the capsizing of a row boat. The dead are: John Mortwdt, Charls Erickson and Selma Telesson. Three other occupants of the boat were saved. This makes a total of nine persons drowned in the vicinity in less than six weeks.

No Chicago Quotations.

Cincinnati, Aug. 1 .- The Cincinnati Chamber of Commerce had no market quotations from Chleago. An arrangement had been made to receive them through a member of the Chicago Board of Trade, but there was a fallure of telegraph co-operation which caused the plan to fall through. New York continuous quotations of grain were substituted.

Mr. Altgeld spoke in part as follows: "There are only two principles or systems of governments known to man -government by brute force and government by consent of the governed. The one is applied from without and is repressive, and, in the end, destructive, because it arrests growth; while the other works from within, is evolutionary and progressive,

"Government by force has existed for thousands of years, and its tendency is everywhere the same. It has checked growth, arrested development, cowed the nobler aspirations of man, thousand delegates were present at the stunted the intellect, and covered the earth with suffering and mlsery.

"Government by consent of the governed stimulates the higher aspirations of man. Under this system of government the people reach their higher capabliitles, not in one line but in all lines. They reach the highest standard of manhood and womanhood, the highest ideals of justice and hu man felicity; and the nations of the earth have been great in proportion as they recognized the principle of free-

"Now after a career of unparalleled splendor, after having been the hope of the human race for a centure, after having shaped the civilization of the age, it is solemnly proposed to abandon the principles that made us great, to come down from the heights where we have been beekoning the nations, and to get on the lower plane of brute force, and enter into a scramble with the despotle nations of the earth in an attempt to plunder weaker people."

THE PUBLIC HEALTH.

The City Board of Headh, recently ap pointed, is composed of gentlemen of character, energy and intelligence; and any measure they may adopt to improve the sanitary conditions of the place will be cordially approved by all good citizens.

In many cities, at home and abroad, the health anthorities are now chiefly occubied with the question of tuberculosis. How may we best arrest its fearful ravages? A paper recently published by Dr. Lee Frankel, of New York,-the able manager of the Hebrew charities of that city-makes some valuable suggestions upon this point. "Medical men are today," he says, "almost a unit in declaring that if proper sanitary conditions could be secured and the populace educated to its needs, the day would shortly come when consumption would be as rare as the plague, if not entirely exterminated.' He insists that special climatic conditions are no longer necessary and unites with Solly in condemning the sending of consumptive patients from home. The "Sanatorium treatment" is to-day, he says, the recognized and rational method of treating tuberculous putients, and, as the disease "cannot be communicated except through the sputa" it is, therefore, beyond all questions, a preventable disease, provided this method and its indispensable conditions be faithfully applied.

The map exhibited by Dr. Ellis in his recent address before the County Medicd Society shows that the percentage of mortality from tuberculosis in Kentucky is very great. This may result partly, n i doubt, from defictive diagnosis, but all deductions being made for this, and for other causes, the rate of mortality is still appattingly high in a country where the conditions seem to be eminently favorable to health. But as to the question of slingnosis, a well-trained physician is competent to decide any question that may arise in typical cases of the disease. It is true, as Da Costa says, that "no active general practitioner (surgical or medical) can be a thorough bacteriologist," but th lattoratories of the great cities are always open and accessible to health authorates, and in all doubtful cases a final decision may be reached without nareasonable delay.

It is Dr. Frankel's opinion that sanatoria should be established in all large cities. Would it not be easy, indeed, to go even further? Why may not every city and county infirmary be conducted on correct sanatorial principles? Every civilized community ought to be prepared to meet this question at once. All public institutions should be conducted as sanatoria.

Dr. Frankel says that after a struggle of several years, the Legislature of New York has "at last made an appropriation for the establishment of a State sanatorium," and that in Massachusetts such an institution has been in existence several years. It is likely that these methods will be generally adopted, and Dr. Frankel believes that it is the duty of educated physicians "to make such propaganda in their respective communities as will lead to the establishment of sanatoria in their vicinities for the treatment of incipient cases, and of hospitals for the more advanced and hopeless cases."

Dr. Frankel's admirable paper was read at the National Conference of Charities which recently met at Chicago. His suggestions are valuable and will be well received.

"Do you believe the Democrats have a good chance to carry Indiana in the State and national elections this year, Mr. Campbell?" asked The Enquirer man.

"Indeed, I do, sir," he immediately replied, "for there is no question that Mr. Bryan has gained ground in Indiana to a very perceptible degree, and especially in saying this. I am convinced that at a at the Mason County Fair. conservative estimate he is not less than 15,000 votes stronger in our State than he was in 1896. There are several causes for this change. The promised paradise of prosperity did not materialize among our people except boom spurts in some spots men in Anderson, Muncie and other manufacturing districts, and the trusts have irreparably injured a number of places that had been prosperous, and many plants have been removed from the State and consolidated in great centers, leaving thousands out of employment. Ex-President Harrison, for whom the Indiana Republicans have high regard as a party man and profound respect as a lawyer, has been cold on the administration and his declaration that the Porto Rico tariff measure was unconstitutional and unjust made a deep impression among them. Then came the Neely and Rathbone robberies in Cuba. It was an infamy to have appointed a man of the notoriously known character of Rathbone to the responsible position he held in Cuba. He was coupled with the bulldog-pistol Lot-Wright-election in this city; with the scandalous Dudley 'blocksof five' scheme in our State, and did Hanna's dirty work in his race for the Senate, which smelled to heaven, a stench in the nostrils of a nation. This fellow was rewarded by Hanna and McKinley for this foul debauchery in politics, and placed over a stricken people whom to rob was like stealing from the blind, as has been aptly said. These are some of the reasons why Indiana will be wrenched from the Republican ranks. I was talking with a well-informed man from Indianapolis whom I have long known, and in whose word and judgment I have faitb, who told me that Bryan will get 10,000 more votes in that city than he did in '96 Personally I am not engaged in politics, but I talk with men all over the State, and I am confident that Bryan will carry it. A DUMPING GROUND

Has This State Been For Impure Food, fever. Startling Results of Analyses-Prosecutions to Follow.

In carrying out the provisions of the "Pure Food Law" passed by the Ken- hall, Saturday, August 4th. tucky Legislature in 1898, M. A. Scovell, Director of the Experiment Station of Kentneky State College, has completed an analysis of 727 samples of food collected since June, 1898. Of these it was found that 290 were adulterated and 437 unadulterated.

"In end-avoring to carry into effect the law," says Prof. Scovell, "we find that Kentucky has been the dumping gound for inferior food products that \$1,067. could not be sold in other States. I am told by a manufacturer of preserves that a car-load of certain preserves were condemned as unfit for use in Ohio. Instructions were given to ship to Indianapolis, and add salicylic acid, boil and ship to Kentucky.

"A grocer bought a car-load of jelly at a very low price in tubs. After keeping it a short time, it separated into glue and liquid and was worthless. One of the preserving companies in Louisville told me that runners were offering a cheap grade of glue for jellies, and certain preservatives, which they guaranteed chemists could not detect.

"We have found salicylic acid, sometimes in large quantities, in tomato ketchup, preserves and other food products which were sold as pure. We have found formaldehyde and other preservatives in milk, which perhaps in some cases was fed to infants.

"The most striking example of all is in the case of essence of peppermint and These extracts both contained "wood alcohol," a poisonous substance, as one of the ingredients, and the County Attorney stated that death had been caused by their use.

"The station has reported ninety-seven adulterated samples of food to Hon. Frank Parsons, Prosecuting Attorney at Louisville, asking him to bring same before the grand jury; thirty-seven to Hon. John R. Allen, Prosecuting Attorney at Lexington; seven to Hon. D. A. Glenn, Prosecuting Attorney at Covington, and three to Hon. J. P. Newman, Prosecuting Attorney at Newport."

Cold Steel or Death.

"There is but one small chance to save your life and that is through an operation," was the awful prospect set before Mrs. I. B. Hunt, of Lime Ridge, Wis., by her doctor after vainly trying to cure her of a frightful case of stomach trouble and vellow jaundice. He didn't count on the marvelous power of Electric Bitters to cure stomach and liver troubles, but she heard of it, took seven bottles, was wholly cared, avoided surgeon's knife, now weighs more and feels better than ever. It's positively guaranteed to cure stomach, liver and kidney troubles and never disappoints. Price 50c., at J. Jas. Wood & Son's drug store.

A Strong Attraction.

Weidemann's big show, presenting a repertoire of the latest comedies at the popular prices of 10, 20 and 30 cents, opens a week's engagement at Washington Opera House next Monday evening, using as an opening bill the four-act comedy, "Down in Egypt" The company is composed of twenty five people and they earry their own band and orchestra. Six strong specialty features are presented between acts, making the performances continuous. The following is clipped from the Paris (Ky.) Gazette:

Wiedemann's big show in a series of popular plays filled a week's engagement at the opera house last week. The Gazette can conscientlously recommend this company to the people of our neighboring cities. It is composed of ladles and gentlemen, each of whom is an aitlst of genuine ability. The plays are well staged, with a careful attention to detall. Mr. Wledemann Is doubtless well satisfied with the business done here, as the opera house has been crowded at each performance, on two occasions standing room being at a premium. The specialties between the acts were first class, and relieved the monotony of the long and tedlous walts. The management of the opera house has arranged to book the company for an engagement during the coinling season.
